

What we already know: <ul style="list-style-type: none"> Upcycling materials for seasonal project 	Topic: Design & Technology Year 8/9 Cycle B Term 3	What's next <ul style="list-style-type: none"> Upcycling Project – Using techniques and machinery to restore timber for PS X Box Controller Stand
---	---	---

Golden Concepts				
Design Process	D & T Skills	Tools & Equipment	PS X Box Controller Stand	Evaluation

What I will know by the end of the unit: Understand key concepts in DT and develop skills along with terminology and improve their safety techniques

Key Vocabulary	
Prototype	An early model or sample of a product used to test and evaluate design ideas
Sustainability	Considering the environmental impact of materials and processes in making the box
Joinery	The process of connecting two or more pieces of material, particularly wood
Materials	Types (e.g., hardwoods, softwoods, plywood), properties (strong, durable), uses (furniture, toys).
Technical Drawing	Using sketches, diagrams and annotation to explore
Functionality	Ensuring a product works as intended for its user.
Make	Production of final product
Finishing	Painting, varnishing, or decorating the box to improve its appearance and durability.
Evaluation	Methods of testing designs, feedback, improvements.

- **Research:** Gather information on different controller stand designs, materials, and functions
- **Sketching:** Draw initial ideas of what the controller stand will look like
- **Planning:** Create detailed plans, including measurements and material requirements
- **Making:** Cut, shape, and assemble the materials
- **Finishing:** Sanding, painting, and adding any final details to complete the controller stand
- **Evaluation:** Assess the functionality and appearance of the finished controller stand
- **Adhere to Health & Safety Rules at all times**

Research your design of controller stand and develop your idea

Make final design. Reflect on design and get feedback.

At all times adhering to Health & Safety Rules

Use the correct tools and materials to achieve desired outcome
