

What we already know (EYFS):

- Pupils will know how to work co-operatively with others, show awareness of space and develop fundamental skills of balance and hand-eye co-ordination.

**Invasion
Green class****What's next (Stage 1)?**

- Pupils will learn how to follow a sequence of instructions and begin to understand how to change pace and direction.

Physical Education Golden Concepts

Health related fitness

Movement and agility

Teamwork and communication

Fundamental skills

Building confidence and leadership

Key Vocabulary

Dribbling	Moving with the ball and keeping possession
Passing	Giving the ball to another member of your team
Finding space	Looking around to see where the space is away from opponents
Dodging	Turning your body in a different direction
Marking	Standing sideways so you can see both the attacker and the ball.
Receiving	Being able to catch/stop the ball from a team member.
Tackle	Knowing how to safely tackle/intercept the ball from an opponent.
Attacking	Moving forward towards the goal in order to score.
Defending	Stopping the attacking team from scoring by intercepting/blocking the ball.

What I will know by the end of the unit:

I know that invasion games are team games which have an **attacking** and a **defending** team. There are normally two teams and two goals/net/baskets to aim towards.

I know that we learn the skills of sending and **receiving** a ball. I know that I need to make sure I look for where my team mates are before passing the ball and to pass away from defenders.

I know that I need to **find space** when I am participating in games in order to move away from my opponent.

I know that **marking** is used in order to stop an attacker from scoring.

I know that I need to work as part of a team in order to score and beat the opposite team. Making sure that I correctly **tackle** when defending and use **passing** to support my team.
